[2] Confirmed by an independent testing institute, cleaning lab tiles with organic soiling using K 2–K 7 pressure washers required 80% less water on average compared to a cleaning nozzle connected to a garden hose. [3] In the Eco!Mode setting, average water consumption is reduced by 30% and average energy consumption by 35% compared to the highest setting (Max mode). [4] Kärcher pressure washers with water-cooled motors offer a service lifetime that is at least twice as long (+100%) compared with Kärcher pressure washers with universal motors in the same bar class. Tested service lifetime extension: K 4 +210%, K 5 +180%, K 6 +150%; the extended service lifetime of the K 7 falls within the range of K 4 to K 6. Based on internal tests at high-pressure operation.

Clever Easy!Motion device concept

- The device design has organised cable and hose inlets and outlets. This ensures freedom of movement and working space and generally makes handling the cables and hoses easier.
- Correctly aligning the devices with hose and cable connections towards the power and water source makes cleaning much more convenient.

Comfort trigger gun with COMFORT!Hold and Quick Connect

- Trigger gun with LCD display and buttons for pressure regulation or cleaning agent dosing. Includes eco!Mode for [3] reduced water and power consumption.
- The 180° level adjustment of the trigger gun enables ergonomic cleaning and more flexibility during application.
- Quick Connect connection for easy connection of the high-pressure hose.

4-in-1 Multi Jet

- Many cleaning options thanks to 4 different nozzles in one spray lance.
- No need to change the lance for increased convenience. Simply turn the spray lance head to change the spray pattern.
- Targeted removal of stubborn dirt from non-sensitive surfaces using the rotating point jet.[3]
